Subject: RE: WV0001279-The Chemours Company FC, LLC-Draft Permit

I'm currently waiting to hear back from WVDEP about confirming the public notice date of the permit. Typically, if the permit states a public notice date of, say, 4/19 (which it does) then it is safe to assume it was public noticed on 4/19. WVDEP rarely has delays in their public notice process. I will confirm the 4/19 date as soon as I hear back from them.

Carissa

Rick,
I found out yesterday that Region 4 already shared the draft permit with NC, so Region 5 can go ahead and share with OH.

Carissa - can you find out from WV when this was or will be public noticed?

Thanks,
Brian

It's probably best to wait until the public notice. Of course, Region 5 could inform Ohio of the proposed draft permit and Ohio could contact WV directly to get more information.

Brian,

I shared the draft with Region 5's drinking water program since they are working with us on the GenX and PFOA stuff with Chemours. R5 asked if this can be shared with Ohio EPA. Since it wasn't public noticed yet, I wasn't sure. Should they wait until tomorrow when it's scheduled to be noticed?

Thanks,

Rick

Just FYI – WVDEP plans to public notice the Chemours Washington Works NPDES draft permit renewal on Thursday April 19th. See the fact sheet rationale beginning on page 183 of the attached pdf file for discussion on PFOA and GenX.

Hi All,

I'm forwarding you the long-awaited Washington Works draft permit that I just received from WVDEP. I will need Joel and/or Mark's assistance with the 316b requirements. It is a 243 page PDF but it looks like they included a lot of DMR pages.

316b intake requirements start on **page 86** of the PDF

316b compliance schedule starts on **page 73** of the PDF

The **Fact Sheet** starts on **page 170** of the PDF

Carissa
